Name of the Project: DriveMe

One paragraph description of the project:

Have you ever been so sick to drive a car? Or maybe too sleepy? Maybe you just want someone to pick up your kids from school while you are at work. Perhaps you have a driver's license, and you want to create an extra income. DriveMe can match drivers and passengers to meet at a chosen location and drive your car to your destination! It aims to provide a driver's service in real time at a price both parties agree on.
